

NOTICE FROM THE ORGANIZATION OF GORBEIA SUZIEN 2020

Zeanuri 11/06/2020

In the light of COVID-19, SkyMan SA – the management team behind the Skyrunner®World Series – had to cancel the 2020 edition of the series.

“The current circumstances, i.e. cancellations and international travel limitations, created an unsuitable environment for an international series to happen. A single race can possibly still successfully take place, but concentrating a whole season in only a few weeks would not be respectful to the athletes and the organizers alike”, says Albert Jorquera, until now representative of SkyMan SA. ‘So, in agreement with ISF, we decided to simply forget 2020 in order to focus on 2021 and delivering the kind of series the community expects and deserves”.

From the organization of Gorbeia Suzien we respect and understand this difficult decision made by the SkyMan management team. Even so, we will continue working with the hope of being able to carry out our race on September 27th, 2020, as long as the health situation allows it and there is no risk for athletes, volunteers, sponsors, the public and the organization. The organization of Gorbeia Suzien will follow at all times the recommendations of the health authorities and apply all the necessary protocols.

From Gorbeia Suzien we continue working tirelessly with the same enthusiasm as always to achieve the race this year and enjoy with the best runners in the world in the Gorbeia Natural Park.

Given the current uncertainty and the multiple changes caused by this health situation, we will continue to report all the news that may affect the Gorbeia Suzien 2020 on our website www.gorbeiasuzien.eus and social networks (Facebook, Instagram, Twitter).

We hope to see you on September 27th, 2020 in Zeanuri.
